

# Integrity API and Bulk Data

## Access and integrate extensive company data

Better informed,  
better prepared

When you're equipped with accurate financial information on the companies you encounter, you're able to plan your approach and make smarter business decisions. We pride ourselves on curating the highest quality, most current company information available, sharing it in ways that suit your needs. View online, monitor your portfolio or integrate the data seamlessly into your internal systems.

The most  
extensive  
database  
available

Our database comprises all corporate entities in the UK and Republic of Ireland (ROI), compiled from comprehensive financial information from Companies House and the Dublin Registry. This is enhanced with our own in-house data collection and information taken from over 20 other sources to create the latest, most complete dataset available.

- Company legal information
- Financial history and ratio analysis
- Credit ratings, limits and analysis
- Directors database
- Shareholder information
- Persons of significant control (PSC)
- County and High Court Judgements (CCJ)
- Insolvency information
- Company group structure
- Company contact data

Our API

Our API (Application Programming Interface) will ensure that your internal systems are always up-to-date, enabling you to:

- Search and obtain information on demand about any UK or ROI Limited Company and any Non Limited Company in the UK
- Monitor your customers, suppliers and partners and receive notifications if any changes occur
- Search and obtain any Director and access data for any other companies that they are associated with
- Access all documents filed at Companies House
- Select any dataset according to your changing business needs

Bulk Data  
Extracts

If you prefer to receive your data as a bulk data feed, we can 'slice and dice' the data as you require it for any number of UK or ROI limited companies – up to the full UK database (even dissolved companies) going back over 25 years. Once you have received your extract we can supply you with changes that have occurred for any of the companies on a daily, weekly or monthly basis.
